Analogous color combinations can also be made up from more than just three colors. Choosing an analogous color scheme creates instant color harmony for a particular design or project. Analogous colors are often found in the natural world, for example, varying shades/tints of yellow (flowers) and green (grass) is common place.

## **Analogous Colors - Create Color Harmony - Color Psychology ...**

When used as a color in a logo, silver acts as a great descriptor of everything high-end, industrial, and technology-related. Some jewelry brands used to have silver in their logos, but over time it has become a little dated as the color became more associated with industrial metals rather than fine metals.

## **How to Choose a Color for Your Logo: The Ultimate Cheat Sheet**

Most brands have more than one color. While the logo might be blue, the website might include yellow or green as well. This is called a brand palette, and important to have those colors work together in harmony. Selecting a color palette is tricky but you don't need a designer to do it.

## **How to choose the right colors for your brand**

It is the analysis of the entire meaning and purpose of a logo, which is much more than just the identity of a brand. In this blog, you'll learn some interesting aspects that govern the psychology of logo design process. ... It also is a color for simplicity and harmony. But the designers use brown also for showing responsibility and ...

## **Know The Color Psychology Of Logo Design Process**

13% — Use yellow or gold colors; 05% — Use more than two colors; Nearly 85% of consumers name color as the primary reason that they purchase a particular product. As you can see from those stats, the majority of brands are using either blue or red in their logos, with black being not too far behind them. Red tends to convey desire, passion ...

**or ...**

Colors also embody conflicting messages, perhaps none more so than red, which can be perceived as both loving and aggressive. Any color used in a logo will deliver a message. Ideally, this message will reflect a brand's personality and purpose, while also resonating with its target audience.

## **The best colors for logos - Learn**

A split complementary color harmony still offers contrast like a standard complementary color scheme, but it creates less tension by using colors analogous to the true contrasting hue. This harmony is less aggressive and more versatile, making it a great choice for new designers.

## **Color Theory: Color Harmonies | The Paper Blog**

These 166 channel logos are for Cablevision/Time Warner New York. The contrast and color have been modified on Photoshop, so the logos appear better on the Logitech Harmony 880 screen. Previews below are shown smaller than actual size.

Analog Colors. Now, analog colors are the ones formed by two colors standing side by side on the circle or wheel of colors. Take one as the dominant and the colors beside to enrich the harmony.

## **Complementary Colors on Logo Design | by Online Logo Maker ...**

5) Tetradic Harmony: Similar to the Triadic, except that there are four points, all equally distanced on the color wheel. This is a color harmony I've only seen mentioned in more recent texts on the subject of color harmony. In my earlier post on this subject, I didn't even include it. My personal opinion is that a design using this isn't really using color harmony and is instead using ...
