Fast Steel Shotshell Manual - Jfrew.lsfclp.hookin2hockey.co

So, the benefit of a #1 Steel load vs. BB steel load is this: a #1 has almost the same pellet energy as a BB, but many more pellets striking the bird which in turn increases the pellet energy transferred to the bird as an accumulative multiplier factor, hence more pellets = better chance of hitting vitals and with the smaller diameter pellet, you are going to get better penetration due to less ...

Shotshell Velocity: Speed DOESNT KILL - Muller Chokes

unless you have hulls it is about the same to buy the cheap stuff on sale. the big savings is when you load the 3.5 10ga or 3.5 12 ga because they load only a little more stuff in the payload and the savings is huge. you can load a 2.75 federal hull real close or the same as an 11/8 3" if you do some target shooting buy the fed shells and when done you have the empty hulls a one ounce load in ...
