2000 Ford Focus: transmission fluid on a 5 speed manual ...

Strictly speaking you don't ever need to change it. Leaving the original fluid in there won't destroy your tranny. Changing the fluid may make the tranny last longer, though, and it will make it shift smoother. Every 30k is excessive unless you are really abusing the car. I'd suggest every 60k, but even every 100k is ok.
