difficulties, solutions to exercises, comments on this book, and further reading. To make this easier I have created a Facebook Group called "Topology Without Tears Readers".

SIDNEYA.MORRIS www.sidneymorris - Topology Without Tears
The study of topology and its spaces is an important aspect of mathematics,topological spaces like other mathematical spaces have axioms that must be satisfied for a topological space to hold. Today i will be treating those axioms with solution to exercises from the book "Topology without tears" by Sydney A. Morris.

Introduction to Topology(Exercises and Solutions)
A solutions manual for Topology by James Munkres. Contribute to 9beach/munkres-topology-solutions development by creating an account on GitHub.

Topology Without Tears by Sidney A. Morris
5. Let (X, \mathcal{T}) be a topological space. A non-empty collection S of open subsets of X is said to be a subbasis for \mathcal{T} if the collection of all finite intersections of members of S forms a basis for \mathcal{T} (i) Prove that the collection of all open intervals of the form (a, ∞) or $(-\infty, b)$ is a subbasis for the euclidean topology on \mathbb{R}
